

Helping to supply frontline charities and community groups

- Supply Chain Solution Ltd have been actively engaged in supporting the supply of stock to food banks, pantries and charities over the last few years. SCS approached FareShare with the idea of using rejected loads to supply FareShare with stock which would otherwise have been destroyed or returned to point of manufacture.
- Jamie Carragher's *23 Foundation* have supported this idea and also attended foodbank conferences to provide ongoing support, which has also included donations to local community pantries.
- This message goes out to any food manufacturer or supplier to the UK supermarkets who have either excess stock or have stock rejected at point of delivery: **we will take your stock.**
- FareShare's network of regional warehouses are geared up to accept full pallets in varying quantities. Simply contact foodoffers@fareshare.org.uk and we will direct the vehicle to our local FareShare warehouse.

Company benefits

Effective Waste Management

"FareShare gives us the opportunity to manage our stock better, it obliges us to look at our product more intelligently, moving it on earlier rather than waiting for it to become waste."

Traceability

"We regard FareShare as a trusted partner who can safely and reliably redistribute our surplus food to charities who feed people in need. They comply with the same Food Standards as the food industry, so we can rest assured that our products will safely find their way onto the plates of the people who need them most."

Supporting Local Communities

"It's the human story behind getting to grips with food waste that really brings the issue to the forefront and shows what a difference we can make if we work together. Partnering with FareShare not only ensures that the food doesn't go to waste but that it serves an even higher purpose in bringing the community together."

Employee Satisfaction

"I can talk about how fantastic it is, but it doesn't really sink in until the employees go out into the places where FareShare are working. They help distribute the food, sometimes go out in the van and they give it to the people that cook the food and they come back buzzing every time. Words like proud, inspiring, motivating, are always in the feedback forms."
