

We surveyed our charities about the cost of living crisis. Here's what they told us...

90%+

have been negatively affected by the cost of living crisis due to:

- Higher demand
- Rising running costs
- Rising food costs
- Rising fuel and transport costs

90%

say demand has increased with people struggling with

- Food bills
- Energy bills
- Mental health issues

70%

say the influx is people accessing support for the first time despite the majority being in employment

70%

say it will get even worse and expect a significant increase in demand

9 out of 10

say they are worried they cannot meet the extra demand and need support with:

- More food (76%)
- Funding (64%)

2m+

tonnes of good-to-eat surplus food is wasted annually. That's the equivalent of 1.3 billion meals.

In a cost of living crisis no good food should go to waste
